

# Marine Fauna Observer Suppliers, Services & Training Facilitators

Our services are crafted to ensure best practice MFO training, onboarding and upskilling processes, guaranteeing efficiency, professionalism and standardisation.

## Who We Are

Current Environmental and the Marine Industry Mentoring (MIM) Network have joined forces as a dynamic partnership, offering specialised expertise in marine fauna observation services throughout Australasia.

## Our Mission

*We strive to improve marine fauna observation practices through increased standard of services, ensuring compliance and overall operational excellence.*

## Why Choose Us

### Extensive Industry Insight

Our team is led by marine scientists/environmental advisors with marine fauna backgrounds and extensive industry and MFO experience, guaranteeing superior service delivery.

### Tailored Training Solutions

We develop tailored training programs and competency frameworks for regulators, operators, consultants, universities and community. These programs are delivered by experienced instructors and ensure proficiency in marine fauna observation.

### Empowering Future Scientists

Committed to nurturing emerging scientists, our programs offer MFO training, mentorship and skill development opportunities, empowering the next generation to make a lasting impact on marine ecosystem preservation.

# We are committed to making a change through best practice environmental management, risk reduction, efficiency building and collaboration.

## Our Services

### MFO Suppliers
